

Chief Technical Advisor ton ICZM - supporting delivery of the GEF LDCF Project on CCA and ICZM in Sierra Leone								
Name of legal entity	Country	Overall project value (EUR)	Proportion carried out by candidate (%)	No of staff provided	Name of client	Origin of funding	Dates (start/end)	Name of partners if any
Jonathan McCue (via Sustainable Seas Ltd)	Sierra Leone	60,000	100%	1	UNDP Sierra Leone	GEF	April 2019 to June 2020	N/A
Detailed description of project					Type of services provided			
<p>UNDP is implementing a five-year GEF funded project "Adapting to climate change induced coastal risk management in Sierra Leone" with the aim to strengthening the ability of coastal communities to systemically manage climate change risks and impacts on their physical infrastructure and economic livelihoods. The project focuses on three thematic components;</p> <p>Component 1: Generating sound scientific knowledge and access to information;</p> <p>Component 2: Climate information internalized into coastal development policy and plans;</p> <p>Component 3: Awareness and alternative, innovative activities to support adaptation in the coastal zone.</p> <p>Through these components, the project will work towards the removal of those policies and any informational barriers that are preventing Sierra Leone, as a nation, to systematically manage coastal risks. This will contribute to the vulnerability reduction of both coastal communities and ecosystems and strengthen institutional capacity and adaptation planning.</p> <p>The objective of the assignment is to provide technical and strategic leadership and guidance in the implementation of the project and its different sub-components ensuring the achievement of its expected outputs and desired results.</p>					<p>SSL (using Jonathan McCue) were employed as Chief Technical Advisor (CTA) to help carryout the assignment in accordance with the functions outlined below.</p> <p>A) responsible for providing overall technical backstopping to the Project.</p> <p>B) provide technical support to the National Project Manager (NPM), project staff and other government counterparts. The CTA will coordinate the provision of the required technical inputs, including developing concept notes and technical reports, reviewing and preparing Terms of Reference and reviewing the outputs of consultants and other sub-contractors to ensure effective and efficient project delivery.</p> <p>C) report directly to the UNDP Inclusive Growth and Sustainable Environment Cluster Team Lead and UNDP Resident Representative.</p> <p>D) Produce a Capacity Development Plan on climate change adaptations for the coastal zones developed for implementation in collaboration with government counterparts.</p>
